## Sutron Corporation Announces NASDAQ SmallCap Market Listing

*October 25, 2005, Sterling, VA...*Sutron Corporation, a leading provider of hydrological and meteorological monitoring systems, products and services, announced that it has received approval to list its common stock on the NASDAQ SmallCap Market effective today, October 25, 2005. The Company's common stock will continue to be listed under the trading symbol: STRN.

“We are very pleased to be accepted by the NASDAQ SmallCap Market,” reported Raul McQuivey, President. “Sutron's NASDAQ SmallCap Market listing enables its common stock to trade in a respected market that is recognized around the world. The NASDAQ SmallCap Market offers the Company greater visibility and stock trading governance.”

For over 30 years, Sutron Corporation has designed and manufactured hydrological and meteorological real-time data collection systems and products that operate under the most extreme environmental conditions. Customers include Federal Agencies such as the US Geological Survey, the National Ocean Service, a division of the National Oceanic and Atmospheric Administration, the Army Corps of Engineers, and the National Weather Service. Sutron's real-time data collection systems, over 40,000 in operation globally, include dataloggers, a variety of telemetry options, sensors, and data management software.
