SUTRON RECEIVES \$2,222,628 ORDER FOR AUTOMATIC HYDRO-MET STATIONS IN IRAQ

May 16, 2007, Sterling, VA..... Sutron Corporation (NASDAQ:STRN), America's leader in remote hydro-met monitoring, announces today that it has received a Purchase Order from Washington International, Inc., to provide Water Quality Monitoring Equipment for Iraq's Ministry of Water Resources (MWR) in Baghdad. Installation locations include the Euphrates and Tigris Rivers, their tributaries, marshlands, and irrigation schemes constructed nearby.

The remote stations, 80 stations in all, will monitor water level and water quality parameters which include water temperature, conductivity, dissolved oxygen, pH and turbidity. This purchase order includes the purchase of five Snow Monitoring Stations, five Well-Level Pressure Sensors, River Velocity/Discharge Measuring Equipment including the latest Acoustic Doppler Profiler and spares for one year of normal operations. The acquired data will be transmitted in real-time through EUMETSAT's METEOSAT Satellite System. As reported previously, Sutron has already received purchase orders to provide a complete METEOSAT downlink and an additional 25 remote stations.

Sutron engineers are in Italy this week training six engineers from the Iraqi Ministry of Water Resources who will be responsible for installation of all the new hydro-met equipment. The Ministry of Water Resources will receive additional training from the U. S. Geological Survey, the primary operator of similar hydro-met stations throughout the United States.

The Ministry of Water Resources has been operating Sutron equipment in Iraq for over a year with great success.

Sutron designs, manufactures, installs and supports solutions for hydrological, meteorological and coastal/oceanic systems monitoring water level, water quality, flooding, coastline and tidal parameters, weather, dam safety and hydropower. Sutron's customers include Federal Agencies such as the US Geological Survey, the National Oceanic and Atmospheric Administration, the Army Corps of Engineers and the National Weather Service.

This release includes forward-looking statements regarding our expected future financial position, results of operations, cash flows, financing plans, business strategy, products and services, competitive positions, growth opportunities, plans and objectives of management for future operations, as well as statements that include words such as "anticipate," "if," "believe," "plan," "estimate," "expect," "intend," "may," "should" and other similar expressions are forward-looking statements. All forward-looking statements involve risks, uncertainties and contingencies which may cause actual results, performance, or achievements to differ materially from anticipated results, performance, or achievements. Factors that may cause actual results to differ materially from those in the forward-looking statements include those set forth in our filings with the SEC, including the disclosure under the heading "Business" and "Management's Discussion and Analysis" in the Company's Annual Report on Form 10-KSB/A filed on June 15, 2005. We are under no obligation to update or alter our forward-looking statements, whether as a result of new information, future events or otherwise.
