

Batteries

5100-0010, 5100-0030, 5100-0040

Features

5100-0010 (105AH)

- The battery will be protected against power surge by a fuse which is included in the power cable.
- Deep cycle flooded cell battery designed specifically for energy storage system applications
- Maintenance-free
- Wrought lead calcium grid construction
- Excellent rechargeability
- Minimal gassing (Extended battery life)
- Built in hydrometer
- Battery orientation - upright
- Batteries can be configured in series and parallel strings to meet voltage and depth of discharge requirements.

5100-0030 (7AH) & 5100-0040 (24AH)

- Rechargeable sealed lead-acid batteries
- Maintenance-free
- Overcharge protection
- Leak-proof
- Easy handling
- No special shipping container required
- Long service life
- Trouble-free, safe operation in any position.
- No need to add electrolyte, as gasses generated during overcharge are recombined in a unique "Oxygen Cycle"
- High-impact resistant battery case made of non-conductive ABS plastic with superior resistance to shock, vibration, chemicals and heat

Ordering

5100-0010	Battery, 12VDC, 105AH
5100-0011	Battery, 12VDC, 100AH
5100-0030	Battery, 12VDC, 7AH
5100-0040	Battery, 12VDC, 24AH

Accessories

6411-1018-2	Cable Assy, Power, 3 ft for 8200A/8210
